2.2.	Authors	11
2.3.	Documents.....	15
2.4.	Statistics. General eLABa repository statistics	18

1. Management of the eLABa Repository Data Visibility Subsystem

The inclusion of authors in the general and institutional author indexes is managed through the 'Other Information' section of the user's profile in the eLABa repository, by selecting the option 'Display in the eLABa Authors Index of Publicity Slices “:

Display in the eLABa Authors Index of Publicity Slices

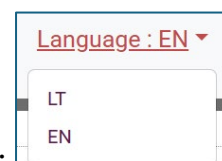

Changed by Sistemas Administratorius NV 2025-03-13

The setting can be modified by the user personally or by system or institutional administrators.

A log of changes is stored in the system. The interface displays who made the last change and when.

2. Elements of Data Publicity in the eLABa Repository

The address of the eLABa repository publicity page: <https://www.elaba.lt/elaba-public/>

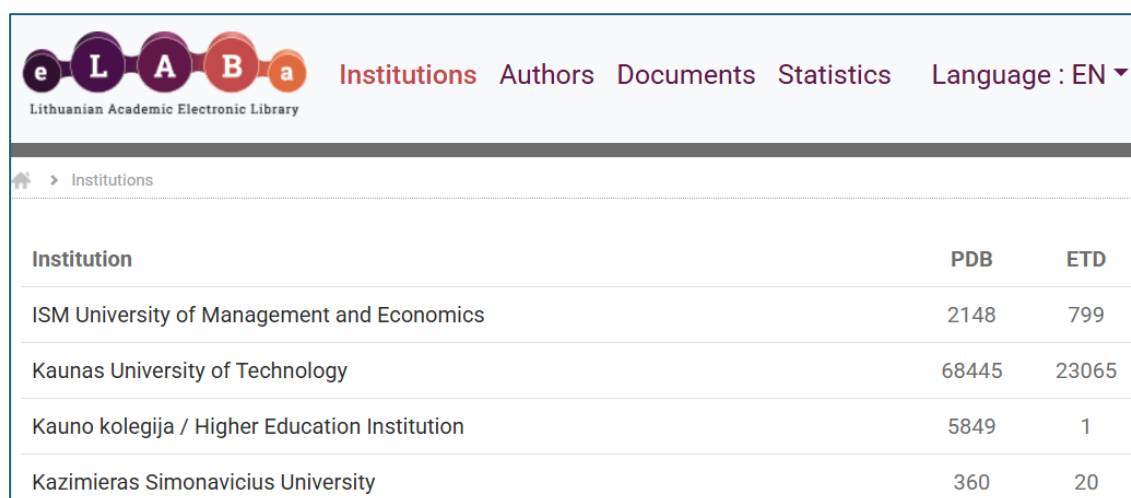

The page is available in two languages - Lithuanian and English: .

Main publicity elements:

- Institutions
- Authors
- Documents (ETD documents, PDB documents)
- Statistics (ETD statistics, PDB statistics)

2.1. Institutions

In the Institutions section of data publicity, you can view the number of PDB and ETD documents registered by institutions.

 Institutions Authors Documents Statistics Language : EN ▼		
Institutions		
Institution	PDB	ETD
ISM University of Management and Economics	2148	799
Kaunas University of Technology	68445	23065
Kauno kolegija / Higher Education Institution	5849	1
Kazimieras Simonavicius University	360	20
